3 V's Analysis for August

Visual: Extremely sharp and professional appearance. You "grew up" from your July video! Exceptional facial expressions that bring engagement. You have fewer eye blinks and seem more confident and relaxed. This is the best video I have seen- your presence ROCKS!

Vocal: Good clear tone with solid intonation and variation in sound. Volume is perfect. Going high pitch on key words works well for you. Your down swings are very effective in creating confidence. You continue to have a positive and upbeat sound, which is approachable and inviting.

Verbal: Clear concise communication- you are having fun which makes your audience smile. Love the ending "Don't you just love my jacket?" YES, and you should wear them more often. Very classy.
